SUBJECT INDEX

AIDS
Friend leukemia complex infection of mice as an experimental model 97
Antibodies
Response in porcine respiratory tract secretion following intraperitoneal immunization .. 177
Identification of the antigenic components of the virulent *Mycoplasma gallisepticum* (R) in chickens: their role in differentiation from the vaccine strain (F) 197
Identification of anti-idiotypic antibody in dogs 227
Bacteria
Chemotactic response of bovine neutrophils to *Pasteurella haemolytica* culture fluid 279
Bacteroides nodosus
Generation, maintenance and reactivity of ovine T-lymphocyte clones derived from sheep immunized with pili 339
Bone marrow
Culture of macrophages from bovine bone marrow 351
Bovine respiratory syncytial virus
Activation of complement 311
Brucella abortus
Evaluation of a delayed-type hypersensitivity test in cattle 213
Bovine monoclonal antibody specific for *Brucella abortus* lipopolysaccharide 363
Calcium
FeLV-induced immunosuppression through alterations in signal transduction: changes in intracellular free calcium levels 47
Cat
FeLV-FAIDS-induced immunodeficiency syndrome 25
Immunodeficiency in latent feline leukemia virus infections 39
FeLV-induced immunosuppression through alterations in signal transduction: changes in intracellular free calcium levels 47
FeLV-induced immunosuppression through alterations in signal transduction: down regulation of protein kinase C 55
Control of feline leukemia virus 69
Diseases associated with spontaneous feline leukemia virus (FeLV) infection 85
Feline immunodeficiency virus infection 111
Evaluation of immunity to feline infectious peritonitis with cutaneous viral-induced delayed hypersensitivity 293
Cattle
Quantitative binding of Fc-receptors, and antibody-dependent cell-mediated cytoxicity of blood lymphocytes in healthy and chronic lymphocytic leukemic cattle 131
Detection of conglutinin in bovine serum by complement-dependent agglutination of *Escherichia coli* 207
Evaluation of a delayed-type hypersensitivity test for the diagnosis of *Brucella abortus* infection 213
Lymphocyte alterations in zinc-deficient calves with lethal trait A46 239
Cloning and expression of the cDNA for bovine granulocyte-macrophage colony-stimulating factor 261
Chemotactic response of bovine neutrophils to *Pasteurella haemolytica* culture fluid 279
Activation of complement by bovine respiratory syncytial virus-infected cells 311
Culture of macrophages from bovine bone marrow 351
Bovine monoclonal antibody specific for *Brucella abortus* lipopolysaccharide 363

Chicken
Identification of the antigenic components of the virulent *Mycoplasma gallisepticum* (R): their role in differentiation from the vaccine strain (F) 197
Sex-related differences in immune response and survival rate of broiler chickens 249
Chimpanzee
Polymorphonuclear leukocyte function in HIV-1-infected chimpanzees 3
Colony-stimulating factor
Cloning and expression of the cDNA for bovine granulocyte-macrophage colony-stimulating factor 261
Complement
Activation of complement by bovine respiratory syncytial virus-infected cells 311
Conglutinin
Detection of conglutinin in bovine serum by complement-dependent agglutination of *Escherichia coli* 207
Cytotoxicity
Quantitative binding of Fc-receptors, and antibody-dependent cell-mediated cytotoxicity of blood lymphocytes in healthy and chronic lymphocytic leukemic cattle 131
Tumoricidal effect of interleukin-2-activated killer cells in canines 153
Cell mediated immune responses in ponies following infection with equine influenza virus (H3N8): the influence of induction culture conditions on the properties of cytotoxic effector cells 327
Dog
Tumoricidal effect of interleukin-2-activated killer cells 153
Incidence and characterization of canine rheumatoid factor 161
Biological variation in random and leukotriene B_4-directed migration of canine neutrophils 219
Identification of anti-idiotypic antibody 227
Equine influenza virus
Cell mediated immune responses in ponies following infection with equine influenza virus (H3N8): the influence of induction culture conditions on the properties of cytotoxic effector cells 327
Escherichia coli
Detection of conglutinin in bovine serum by complement-dependent agglutination 207
Feeding and nutrition
Circulating lymphocytes, neutrophils and immune complexes in pigs 373
Feline immunodeficiency virus
Feline immunodeficiency virus infection 111
Feline infectious peritonitis virus
Evaluation of immunity to feline infectious peritonitis in cats with cutaneous viral-induced delayed hypersensitivity 293
Feline leukemia virus
FeLV-FAIDS-induced immunodeficiency syndrome in cats 25
Immunodeficiency in latent feline leukemia virus infections 39
FeLV-induced immunosuppression through alterations in signal transduction: changes in intracellular free calcium levels 47
FeLV-induced immunosuppression through alterations in signal transduction: down regulation of protein kinase C 55
Control of feline leukaemia virus 69
Diseases associated with spontaneous feline leukemia virus (FeLV) infection in cats 85

Friend leukemia complex
Infection of mice as an experimental model for AIDS studies 97
Genetics
The influence of the swine major histocompatibility genes (SLA) on variation in serum immunoglobulin (Ig) concentration 139
Lymphocyte alterations in zinc-deficient calves with lethal trait A46 239
HIV virus
Polymorphonuclear leukocyte function in HIV-1-infected chimpanzees 3
Horse
Cell mediated immune responses in ponies following infection with equine influenza virus (H3N8): the influence of induction culture conditions on the properties of cytotoxic effector cells 327
Hypersensitivity
Evaluation of a delayed-type hypersensitivity test for the diagnosis of *Brucella abortus* infection in cattle 213
Evaluation of immunity to feline infectious peritonitis in cats with cutaneous viral-induced delayed hypersensitivity 293
Idiotypes
Identification of anti-idiotypic antibody in dogs 227
Immunization
Specific antibody response in porcine respiratory tract secretion following intraperitoneal immunization 177
Immunodeficiency
FeLV-FAIDS-induced immunodeficiency syndrome in cats 25
Immunodeficiency in latent feline leukemia virus infections 39
Feline immunodeficiency virus infection 111
Immunoglobulins
Quantitative binding of Fc-receptors, and antibody-dependent cell-mediated cytotoxicity of blood lymphocytes in healthy and chronic lymphocytic leukemic cattle 131
The influence of the swine major histocompatibility genes (SLA) on variation in serum immunoglobulin (Ig) concentration 139
Incidence and characterization of canine rheumatoid factor 161
Specific antibody response in porcine respiratory tract secretion following intraperitoneal immunization 177
Immunosuppression
FeLV-induced immunosuppression through alterations in signal transduction: changes in intracellular free calcium levels 47
FeLV-induced immunosuppression through alterations in signal transduction: down regulation of protein kinase C 55
Interferon
Identification of ovine interferons: differential activities derived from fibroblast and lymphoid cells 187
Interleukin
Tumoricidal effect of interleukin-2-activated killer cells in canines 153
Leukemia
Friend leukemia complex infection of mice as an experimental model for AIDS studies ... 97
Quantitative binding of Fc-receptors, and antibody-dependent cell-mediated cytotoxicity of blood lymphocytes in healthy and chronic lymphocytic leukemic cattle 131

Leukocytes
Polymorphonuclear leukocyte function in HIV-1-infected chimpanzees 3
Generation, maintenance and reactivity of ovine T-lymphocyte clones derived from sheep immunized with pili from *Bacteroides nodosus* 339
Leukotriene B_4
Biological variation in random and leukotriene B_4-directed migration of canine neutrophils 219
Lymphocytes
Quantitative binding of Fc-receptors, and antibody-dependent cell-mediated cytotoxicity of blood lymphocytes in healthy and chronic lymphocytic leukemic cattle 131
Generation, maintenance and reactivity of ovine T-lymphocyte clones derived from sheep immunized with pili from *Bacteroides nodosus* 339
Circulating lymphocytes, neutrophils and immune complexes in pigs after feeding 373
Lymphopenia
Circulating lymphocytes, neutrophils and immune complexes in pigs after feeding 373
Macaque
Spectrum of disease in macaque monkeys chronically infected with SIV/SMM 13
Macrophages
Culture of macrophages from bovine bone marrow 351
Monoclonal antibodies
Bovine monoclonal antibody specific for *Brucella abortus* lipopolysaccharide 363
Mouse
Friend leukemia complex infection as an experimental model for AIDS studies 97
Mycoplasma gallisepticum
Identification of the antigenic components in chickens: their role in differentiation from the vaccine strain (F) 197
Neutrophils
Polymorphonuclear leukocyte function in HIV-1-infected chimpanzees 3
FeLV-induced immunosuppression through alterations in signal transduction: down regulation of protein kinase C 55
Biological variation in random and leukotriene B_4-directed migration of canine neutrophils 219
Chemotactic response of bovine neutrophils to *Pasteurella haemolytica* culture fluid 279
Circulating lymphocytes, neutrophils and immune complexes in pigs after feeding 373
Pasteurella haemolytica
Chemotactic response of bovine neutrophils to culture fluid 279
Pig
Specific antibody response in porcine respiratory tract secretion following intraperitoneal immunization 177
Circulating lymphocytes, neutrophils and immune complexes after feeding 373
Pig, miniature
The influence of the swine major histocompatibility genes (SLA) on variation in serum immunoglobulin (Ig) concentration 139
Protein kinase C
FeLV-induced immunosuppression through alterations in signal transduction: down regulation of protein kinase C 55
Rheumatoid arthritis
Incidence and characterization of canine rheumatoid factor 161
Semliki Forest Virus
Identification of ovine interferons: differential activities derived from fibroblast and lymphoid cells 187

Sex-influence
Sex-related differences in immune response and survival rate of broiler chickens 249
Sheep
Identification of ovine interferons: differential activities derived from fibroblast and lymphoid cells 187
Generation, maintenance and reactivity of ovine T-lymphocyte clones derived from sheep immunized with pili from *Bacteroides nodosus* 339
Simian immunodeficiency virus
Spectrum of disease in macaque monkeys chronically infected with SIV/SMM 13
Tumours
Tumoricidal effect of interleukin-2-activated killer cells in canines 153
Viruses
Polymorphonuclear leukocyte function in HIV-1-infected chimpanzees 3
Spectrum of disease in macaque monkeys chronically infected with SIV/SMM 13
FeLV-FAIDS-induced immunodeficiency syndrome in cats 25
Immunodeficiency in latent feline leukemia virus infections 39
FeLV-induced immunosuppression through alterations in signal transduction: changes in intracellular free calcium levels 47
FeLV-induced immunosuppression through alterations in signal transduction: down regulation of protein kinase C 55
Control of feline leukaemia virus 69
Diseases associated with spontaneous feline leukemia virus (FeLV) infection in cats 85
Friend leukemia complex infection of mice as an experimental model for AIDS studies ... 97
Feline immunodeficiency virus infection 111
Identification of ovine interferons: differential activities derived from fibroblast and lymphoid cells 187
Evaluation of immunity to feline infectious peritonitis in cats with cutaneous viral-induced delayed hypersensitivity 293
Activation of complement by bovine respiratory syncytial virus-infected cells 311
Cell mediated immune responses in ponies following infection with equine influenza virus (H3N8): the influence of induction culture conditions on the properties of cytotoxic effector cells 327
Zinc
Lymphocyte alterations in zinc-deficient calves with lethal trait A46 239
